The Meaning of Numerology

Our names are much more than just a means of identification or a family relationship. Our destiny and experiences are written in our names given to us at birth. Numerology is here to protect, guide and reward those who have the foresight and wisdom to observe and understand the influences, insight and experiences written in our names.

It has been acknowledged throughout the ages, that names play an essential part in influencing and directing the destinies of mankind and that they represent experience, human nature character and divine sanction. The importance of names is frequently brought out in the Bible. On several occasions the Lord changed the names of his chosen ones, to represent the duties and services to be carried out. There were times when a name was chosen even before birth, as in the prophecy of Jesus Christ.

Numerology shows our inherent capabilities and the spiritual commands hidden in our names and the number comprising them. It is often called the blueprint of the soul. Pythagoras gave life to Numerology by applying mathematical formulas to the name, which reveals the ultimate life goal of the person bearing the name.

Deep in the heart of everyone lies the dreams of riches, self-actualization and spiritual involvement. The way is there and hidden in each person's name. Numerology will help you discover it.

The Meaning of Birth Force

Everybody wants to know the secret of how to be successful. To be assured of one's future, right from the start in the business world, is a dream almost too good to be true. This can happen for you, right now if you understand. On the day you were born, a record of what you are like, what you have to offer the world, your talents and abilities were outlined. The Birth Force is what you came here to experience.

If your parents had read this valuable record, much anxiety and uncertainty could have been spared. They would have had the understanding required to direct and guide you, to help you achieve your inherent goals. The Birth Force is a great tool to use when choosing a career. It tells you what you are fitted to do. It's your innate resource of talents and abilities that you can draw upon as you go forth to meet the responsibility of your Destiny, as shown by your name at birth. Even though the Birth Force and Destiny numbers are different in purpose and meaning, they work together. If you have confidence in yourself and your natural abilities that come from your Birth Force, and work toward the goals of your Destiny influence, you will surely achieve success. By knowing yourself you will avoid feelings of insecurity. The rule for figuring the Birth Force is to add up the numbers of the month, day, and the year you were born and reduce them to a single digit.

Your Number 6 Birth Force

Your birth date 07/06/1946, which gives you the number Six Birth Force is the

humanitarian type, and is loving, humane, responsible, conscientious, and unselfish. George, you are capable of doing many worthwhile things in life, and of serving mankind. You have an appreciative and loving nature, are kind, generous and sympathetic.

Much of your success in life, both in business and social activities, will come through the protective, helpful and kind things you do for others. Children, the elderly, invalids, and the less fortunate will be attracted to your loving and humane qualities.

People born with this Birth Force number will fight to the bitter end to protect and uphold the rights and justice of humanity. Your generosity and good nature may be taken advantage of, perhaps even by your family or loved ones, but as long as you keep on serving humanity, and do not become resentful, you will always have opportunity and money in the world.

George, you must guard against going to the extreme and sacrificing yourself for others, or giving too much because you love to help. This could cause unnecessary loss and emotional unhappiness.

An artistic and harmonious environment should be established, as you have an artistic nature, and are fond of the home and family. You have a love for beauty and the everyday comforts and luxuries of life.

You make an excellent companion, and can be relied on for comfort and help in times of need. However, you need the same sympathy and love you give to others, and must have the chance to live an idealistic life. George, you can be more controlled by your feelings than you care to admit, and when not appreciated or happy, you can be surprisingly unreasonable and stubborn. You may even become dominant and rigid. Try to guard against this, as you are too fine a character, and should not allow these negative tendencies to get the best of you. Love and the number Six Birth Force enjoys the finer things of life, together with artistic appreciation and expression.

The number Six Birth Force will find opportunity through humanitarian service, as well as commercial pursuits which combine beauty, comfort, and art. There is also opportunity through training and teaching children, all lines of education, reform, and religious activities.

People with the number Six Birth Force should choose their professions and occupations carefully, and should bear in mind that their chosen path must be harmonious to their nature.

Your Birth Force Testing Number 33

The 33/6 Master number gives you a strong urge to protect others. You should never be in a profession that would be destructive to humanity. The two three's give you an expressive and caring attitude and people should feel comfortable telling you their

problems; they know you'll understand. By answering their needs, you will find the fulfillment this number demands of you. The 33 vibration is Christ-like in expression; it is the peak of expression in humanity.

At times you may deny yourself, sacrificing yourself for others. If you are not living up to the 33, but instead the 6, you may feel little satisfaction from these sacrifices.

The 33/6, if used to its potential, has the ability to bring peace to humanity. You are always ready to help others. It also suggests extraordinary talents in music, art, and literature.

The Meaning of the Heart's Desire

Has anyone ever said to you, "Why don't you think like I do?" This remark, instead of influencing you, may have annoyed you to the point of wanting to do something completely different.

If everyone acted and thought alike, there would be no incentive to grow and develop, create or carry on. Instead, there would be no progress and no fun in living; complete boredom. Man's link in the chain of divine activity and divine principle is the right to constructive self-expression. We are born free souls and must grow and live in ever increasing attunement and beauty from within. Only then can we be true to our divine privileges, and our fellow man.

The Heart's Desire is one of the most important numbers in Numerology. It is found from the letters a-e-i-o-u in the name at birth. The Heart's Desire number will help you discover what it is you desire to be, or do.

The urge of the Heart's Desire is so strong, that at times it overrules all other traits of character; even those of the Birth Force and Destiny. At other times it may lie dormant and be repressed by circumstances until suddenly awakened, it becomes active with a surprising force, changing all well-organized plans for work and success. This inner seed of self-expression is within every person. However, not all people hear or stop to listen to the call of the soul's command and fail to gain from its life-giving energies.

If you are thinking about joining another in a domestic relationship or business affair, it is wise to know the inner nature of your loved one or associate. Even though you may have a lot in common, there will probably come a time when the inner nature of the other person (or your own) comes to the surface. This may come as a surprise, if you are not prepared, and may cause problems. However, if you are prepared, it could bring a deeper understanding and greater happiness.

The nature of the Heart's Desire never changes. In the background, the urge of man's soul is quietly taking part in his desires, interests and affairs. To summarize, the Heart's Desire is: What the individual values most, personal likes and dislikes, methods and

ways of looking at things, the way the true character will be expressed, the ambition and incentive, the soul's longing, the individuality and the inner urge.

Your Number 7 Hearts Desire

Deep in your heart there is a strong desire for the best life has to offer, for you are naturally discriminating and selective. Your aim is high and you strive for the perfect result. Your life and all your undertakings are governed by a keen sense of perfection. Sometimes you reach for a goal that is almost unattainable, thereby making it difficult for others to live up to your expectations of them, or for them to understand you. This does not mean, however, that you should lose sight of your ideals.

George, you derive great satisfaction from being sure everything is just right and your sense of the "rightness of things" is tremendously strong. You want to know the reason why and greatly desire knowledge. You do not accept things at their surface value and before allowing them in, or making them a part of your life, you seek to understand, test and prove the causes, underlying principles and motives. You refuse to accept anything, be it environment, friendship or opportunity, if it does not measure up to your standards, as your ideals are well defined.

You feel and sense higher principles, hidden values and spiritual and occult standards with which to measure life. You may seem to be analytical and mental, but you have a deep intuitive feeling. George, you should accept these assets in your character, and use them in your everyday affairs. If you do, they will allow you to develop and uncover the hidden laws of life for the betterment of humanity. You have a great deal of pride and are often very quiet in manner. Your desire for the best makes you particular about your partnerships.

There will be times when you will experience the urge to get away from it all, to live a life of serenity and solitude. No matter how busy and active your life is, you should take time out daily to be alone, relax, rest, study, think and meditate. This holds especially true if you have a serious problem to meet. By doing this, you will discover your inner soul guidance and make fewer mistakes.

George, your ability to analyze may make you appear suspicious, cool or calculating, and your natural reserve may cause others to consider you proud, distant or hard to meet. Watch your actions and allow others to see and discover the fine generous spirit you have hidden beneath what appears to be a cool manner, especially in love and marriage. You can bring about misunderstanding and separation by being exacting and demanding explanations from others. If others misunderstand you, seek conscientiously to overcome the misunderstanding.

At heart, you are an "idealist" and a "dreamer," and you love the mysterious, odd and unusual. Do not allow your reserved and quiet nature to suppress you. Instead, keep a broad faith in people and life itself. Be forgiving and kind, go forth with pride and dignity and value your desire to get the best there is out of life. Cleverness, charm and distinction are assets that you inherently possess. Let these lift you to an outstanding

and specialized position in life. When your desires are realized, be sure to share with others. In this way, you'll find true happiness.

The Meaning of the Personality

The personality will open many doors of opportunity when it's understood and made part of the character. It should be the channel through which the true character is expressed. An individual's personality does not represent the inner nature, nor is it the true self. Instead, it's the outer self; what you present when meeting others in business or social situations. There is a strong tendency to judge people by their personality. This can lead to many misunderstandings. A pleasing personality may cover up talent, weaknesses; even sincerity and honesty. On the other hand, a person with good abilities and character may be overlooked because of a dull or unattractive personality. The individual is quite often unaware of these mannerisms. As the person gets older, these traits become habits and may be very difficult to change. When attempting to get ahead in the world, it's important to combine the meaning of the personality number, to the talents of the birth force, and the more powerful urge of the heart's desire. This will allow for true character building. Since the personality is the way we express ourselves, it's important to be in harmony with this number when expressing ourselves. The personality number is found by adding all the consonants in the name given at birth, and reducing them to a single digit.

Your Number 8 Personality

The Meaning of the Reality

We all hope for security in the final stage of life. Some people prepare and plan for this period, while others avoid even thinking about it. The Reality number should be kept in mind your entire life. It explains the influences that will affect you during the final stage of life.

Your life was outlined the day you were born. If the Reality number is taken into consideration early in life, the latter days can be as successful, enjoyable, interesting and secure as any other time in life. This is one more thing to take into consideration to help guide you. It is found by adding your Destiny number to your Birth Force.

The Reality number's influence is very subtle. Many people are unaware of its persuasive presence. In young children, it is very noticeable in their personal interests and by the way they act. However, the demands of the Destiny number, personal ambitions and the need to earn a living take over and the Reality number is forced into the background. But it is always there and comes to the surface as the years pass by. The Reality number gives a new perspective to old age. It is no longer something to be feared.

Your Number 3 Reality

The privilege for true self-expression and an opportunity for a fuller, richer life is now present, and is perhaps greater than at any other time during the life.

Even if you have been unable to express yourself in a creative manner in the past, you may be surprised at the development and growth, which comes at this time.

You should utilize this opportunity, and use your power of imagination in a constructive way, instead of scattering your talents and forces in self-indulgence.

The Meaning of the Karmic Lessons

The numbers missing in the name at birth, indicate experiences avoided, or handled negatively in the past. The ultimate goal is to include all of the vibrations in a balanced quantity. When this is accomplished, the obligation for reincarnation no longer exists, and we will move on to the next stage of evolution. Those who have many numbers missing have many karmic lessons to learn. Don't fear these; it is what you came here to work on. By accepting and realizing the necessity of our lessons, we will have an easier time learning them. If we fear it, it's only because we are ignorant of the advantages it can bring us. Don't wait for life to teach you about it or you may first experience its more difficult side. Accept it consciously and willingly and you may benefit from and even enjoy the experiences it brings about. If you find that the characteristics of your Karmic lessons don't seem to fit, it's possible you have already made up your Karma.

The missing number or numbers may appear elsewhere in the chart as in the Destiny, Heart's Desire or the Birth Force. This may cushion the Law of Karma, but you still need to experience the vibrations of these numbers until compensation is made and the karma is erased.

The tendency is to avoid effort and take short cuts, as there is a fear that labor means only limitation and hardship. No fours may also indicate a lack of system, order and routine. Life will show this individual that he can accomplish nothing without starting from the ground up and working slowly and carefully. He will not be allowed to rush through his experiences carelessly, but will be forced to lay his foundation "brick by brick."

Many Fives Lesson

Many fives in the name give way to a restless nature, an interest in too many things and a lack of application. The tendency is also to move suddenly from one interest or line of work to another, without completing either the work or the task at hand. Individuals with many fives in their name would do well in a line of business that would bring them into contact with the public and people in general. There is opportunity through all types of salesmanship and through civil and legal activities. Unless their home life is filled with a great deal of variety and interesting people, they are not generally domestically inclined. They must guard against being critical of others.

Average Sixes Lesson

The number six loves luxuries and the comfortable things of life, the home and the beautiful. It has a willingness to take responsibility and a keen sense of right and wrong. It is the number of the idealist, the humanitarian, the teacher, the physician and the one who is interested in children and welfare work. One six in a name will give these qualities.

However, two or more sevens will show the desire for proof and one who likes to work with figures or who is mathematically or scientifically inclined. They show a love of facts and have a keen mental attitude. They can be difficult to know or understand, as they are selective. It has the ability to weigh and balance and see both sides of a situation, resulting in recognition and positions of authority. Straining over money and finances can affect the life, and although it has business ability, it is not an easy number. Money evaluation and business training should be cultivated.

Many Nines Lesson

The individual with many nines in their name will show humanitarianism, impressionability, emotionalism, generosity and artistic ability. They can sometimes lack emotional balance or practical direction, and can be difficult to reason with. They are usually forgiven because of the generosity that is in their nature. Many nines can make the individual moody or overly sensitive, and he should watch his physical health.

The Meaning of the Personal Year

The Personal Year number is one of the most important and useful numbers in Numerology.

Every year brings its own number. This number reveals the circumstances that will be encountered during the current year. The Personal Year number shows how to get the most from the experiences during a particular year, how to direct personal affairs and how to avoid trouble.

The Personal Year number does not stand-alone. It is a supporting and directing force, year by year. It does, however, make its own demands and has its own identity for each year of life.

Knowing how the cycles of life influence us can give us answers to many of our problems. At the start of a new cycle there is a strong desire to be up and doing, to move ahead and begin new things. There is new motivation and a strong impulse to get things

done. As a cycle comes to an end, there is a desire to be done with things, or situations.

Throughout life, everyone is confronted with these beginnings and endings. It is only when we fear change and fail to move ahead that distress and hardships continue. The Personal Year number has many interesting things to tell and one can benefit a great deal by taking advantage of this number.

The rule for finding the Personal Year number is to add the digit of your month and the digit of your day of birth to the sum digit of the current year.

Your Number 4 Personal Year

Between January of this year and January of next year, there is much work to do. This is a very practical year for you. The inspiration and plans of last year must now be put into solid and concrete form. There won't be much time for personal pleasure. This is the year you can lay a foundation for security and lasting conditions. Details should be attended to with honesty and patience, and being organized is very important this year.

From time to time, circumstances will force you to look at things from a material point of view, and you will be required to stay on the job whether you want to or not. However, when the year is over, you should feel a considerable amount of satisfaction in what you have accomplished.

Should you evade the work or responsibility, you may regret it later, and could find the burden still present next year. Each year brings its own opportunity and requirements and next year is your freedom year.

George, you may become frustrated at times, as the motto of this year seems to be "one step forward and two steps back". There may be times this year when expenses seem high and finances low, but if you use good common sense, you can meet all the requirements and come out ahead. Past successes and failures must now be carefully examined, as this is an organizational period designed to bring a person down to earth. Great potential for achievement exists.

Strike a goal of work and routine during the early spring and stick to it. Rewards can come for work done well this year.

Personal Year 33 Testing

The two 1's which support the digit 2 give the master number 11 strength, will, determination, and therefore is much stronger than the number 20, which has only the value of 2. The number 1 also gives the gentle 2 initiative, courage and leadership ability. It is the combination of the double 1 and the kind and gentle 2 that give outstanding qualities of inner power to bring light to humanity and to influence the masses as a spiritual messenger.

The mission of this number is service to mankind. It is the dreamer, the mystic, and receives its inspirations and visions from higher planes. The number 11/2 may be quite psychic, however, not always aware of it.

During this period, if the individual seeks to live for the service of mankind, then fame and success are assured. However, if the individual is selfish in his or her undertakings, or seeks personal ambition alone, then downfall is sure to be encountered.

This master number is a number of great power and tension, and may be difficult to live up to because of its strict requirements. The 11/2 when rightfully expressed and lived up to can rule the masses, however, spiritual living is demanded.

The Meaning of the Essence

Each letter that makes up the Essence describes the nature of events to be met during that particular period of time. The Essence is under the direction of the Pinnacle and guided by the Personal Year. All letters and numbers represent the actual experiences taking place.

When the Essence is understood and used as a tool, you can anticipate the events and challenges sure to be encountered during that particular time frame. A bridge to the future is established, creating awareness, which provides the opportunity to encounter situations with knowledge and insight.

When the group of letters that make up your Essence seem hard, don't read it negatively. Remember - all numbers and letters are good and represent privilege and opportunity in their own special way. Understanding the Essence will help you to find the best way to walk life's path, while under that influence. Difficult periods occur in every one's life, but by knowing what to expect and how to take advantage of the opportunities present or seemingly hidden in each letter and number, life can become a pleasure and a victory.

Your Number 6 Essence Till Birthday

All that stands for ideals and emotions, love and marriage should be worked for and maintained during the period of the six Essence. Business affairs can be stabilized and financial security realized. The welfare of mankind, unselfish thought and action is part of the responsibilities of the six Essence and may contribute to financial security.

Children and their relationship to the family are of much interest and importance, but may cause problems and discord under the six Essence. The affairs of marriage, even separations may be a problem if love is not true and selfish interests are followed. A dominant, possessive or selfish individual may cause unhappiness. George, you may be forced to cover expenses for others, possibly family members.

Responsibilities must be taken with good grace. Rewards may come through inheritance, financial gain or through love and admiration. Popularity, social life, recognition and a high standing in the community are the rewards of service when ideals are maintained.

Your Number 9 Essence Starting on Birthday

The number Nine Essence is an important period and brings many blessings in disguise. It also demands a broad, compassionate and tolerant attitude. It provides unlimited opportunities to broaden your horizons in whatever area's you choose. However, you may experienced a loss during this period because it's necessary to let go of old conditions and clear the way for the future. The number Nine represents completion.

Some phases of life under the Nine Essence may be disappointing or not truly happy. The Nine is the number of deep feeling and drama; but there are also assets and privileges to be taken advantage of.

There may be many emotional experiences through love and romance. These can be interesting, but also disturbing if love is selfish and clinging. Love affairs for personal interest alone could easily break up. Even deep and lasting love may have to be given up to teach the lesson of understanding and that true love simply loves; it does not seek to hold or limit.

Under the Nine Essence experiences of many kinds take place and life is an open book to enjoy and study. Big business finds opportunity under the Nine Essence and the scope is unlimited when the welfare of mankind is considered. Money and the best things in life belong to the number Nine and can be made and retained. Even with the loss of money, more can be gained.

Legal matters and lawsuits may enter in if there is lack of honesty. Others may try to take what is not rightfully theirs. George, you will gain little from arguments and if you get involved in a lawsuit, it can be long and drawn out.

If your purpose is right and for the good of all, this will be a pleasant time for you.

The Meaning of the Pinnacle

The Pinnacles are well-defined paths which indicate the direction of experience during the individuals four periods of life. They are instructive and protective.

When the Pinnacles are realized and understood, they can be prepared for ahead of time, and the heights of attainment indicated by each Pinnacles number can be fully reached and utilized. It is sometimes hard to account for the sudden changes or unexpected conditions that take place in our lives. We may suddenly change our associations, line of work, or complete lifestyle. When we realize, however, that change means progress, we

then have a chance to succeed. These changes are revealed to us by the Pinnacles and will operate regardless of any other numbers on our birth chart.

No one can escape the Pinnacles or the valuable experience gained by them. The signposts hold true for the aware, as well as the common individual. The aware, however, welcome these experiences and realize that through change there is growth, while the ordinary man calls them fate and may not see the true purpose behind the experiences.

The first Pinnacle is very personal and begins when we are born representing the spring of life.

The second Pinnacle moves quickly by, having a period of nine years. It represents the summer of life; a time for family and responsibility.

The third Pinnacle also covers a period of nine years, and represents the more mature states of mind. It is the middle age, and covers the autumn of human experience.

The fourth Pinnacle represents the winter of life, and will continue until the end of our earthly existence. It is during this time that we can cultivate the experiences of the past for opportunity and success and should work for the human and spiritual welfare of mankind.

Each characteristic of the Pinnacle should be utilized to its fullest and be recognized as a period of development, progress, and growth. The rule for figuring the Pinnacles is as follows:

First Pinnacle - The sum of the digits of the month and the digits of the day of birth.

Second Pinnacle - The sum of the digits of the day and the digits of the year of birth.

Third Pinnacle - The addition of these two numbers. (First and Second Pinnacles)

Fourth Pinnacle - The sum of the digits of the month and the digits of the year of birth.

The rule for timing the Pinnacles is as follows:

Start with the number 36. From the number 36, subtract the number of the Birth Force. This will give you the period of time the first Pinnacle is active, and tells at what age it's influence will end.

Next, add nine years to the age the first Pinnacle ended. This is the period of time the second Pinnacle is influential.

Add nine years again to the age the second Pinnacle ended. This will be the period of time the third Pinnacle is in effect.

The fourth Pinnacle will be in affect from the end of the third Pinnacle until death.

First Pinnacle 4 Birth to 30

The number four as a first pinnacle often finds the younger person responding to practical and serious ideas, and often the individual will find work early in life.

The number four is the number of order, system, and application. It is the builder, seeking results of a concrete nature. By placing facts and ideas in their proper order, the number four has the ability to manage and direct.

The work of the four pinnacle generally lays a good solid foundation for the future; however, there is usually much hard work and may be economic problems. On any four pinnacle, the individual must work for system, management, and organization, to get the desired results. However, this could very well be the perfect opportunity to put the plans and ideas only dreamed of in the past into concrete form during this four pinnacle.

This is not a leisure time, however, and any character not willing to face the practical aspects of life may find that economical management and endeavor cannot be avoided.

During a four pinnacle, it may be the first time to experience the opportunity to work, build, and get results in a serious and worthwhile manner.

This is a period of intense work, but it is also a very good time to build solid foundations, and the desires and results will come through continued effort and application.

Second Pinnacle 8 From 30 to 39

The number eight as a first pinnacle indicates an early career in the business or professional world and a fine start in life. However, the individual may be forced to be the means of support for the relatives or family.

The number eight means authority, strength, courage, and ambition, and on any pinnacle can be a time of successful financial and material gain.

The individual on any eight pinnacle may find themselves in charge of property,

business, or professional undertakings which depend on repeated effort for success. An eight pinnacle can be difficult at times, as it will demand full use of application and intelligence, and will not tolerate weakness or any efforts to avoid facing the issue. It is not a time to trust to luck, but requires intelligence, efficiency and good management.

Good understanding and judgment of people is necessary, as many disappointments and problems may be encountered through a misplaced trust in others.

Authority and recognition is promised during any eight pinnacle. However, expenses may be high, so careful management and budgeting of the affairs is necessary. Friendship and support comes through an interest in organizations and societies.

During any eight pinnacle, the individual should work intelligently, rather than emotionally, and should cultivate balance and judgment.

Third Pinnacle 3 From 39 to 48

The number three as a first pinnacle shows an artistic opportunity present. However, quite often a younger person will show little regard for work and effort and seek rather to enjoy life, thus causing a wasted first pinnacle with the possibility of regret later on, if the talents at hand are not directed positively and constructively.

The number three on any pinnacle opens the door for more personal expression, and is the number for creative ability, inspiration, and artistic feeling. It is a wonderful pinnacle to be in, as the undertakings are not hard, but deal instead with feeling and imagination.

There is opportunity for ideas of a creative nature, as well as through writing, speaking, or acting. It is a time of enjoyment and the pleasures of living, as well as a natural attraction for money.

The number three as a second or third pinnacle can be a real blessing. It can give the individual more of a personal opportunity to develop the ideas and talents than at any other time during the life.

For the final pinnacle as well, artistic, imaginative, and creative expression can continue. However, it is important to guard against careless expression of the emotions and feelings, as many unhappy experiences could arise due to a loss of control over the emotions.

The number three on any pinnacle should be a pleasant and cheerful time, with a cultivation of the arts, and a development of the talents. There is opportunity for success, an expanded social life, and tremendous self-expression.

Fourth Pinnacle 9 From 57 to Death

Any individual working under a nine Pinnacle would be expected to show a great deal of tolerance and compassion for the "brotherhood of mankind". The number nine can be a difficult Pinnacle to live up to, unless the character is well developed and these thoughts and feelings are already in the make-up of the individual. It is not always easy to express love and tolerance in this somewhat confusing and hectic world.

If the lessons of compassion and tolerance have not been learned by the time a nine Pinnacle is completed, great disappointment will be realized.

This is not a time for personal recognition, as the number nine represents all people, religions, and civilizations. If the principles of the nine are expressed, then success and a full life are assured. On the other hand, the number nine can be a very unhappy Pinnacle if desires are totally for ones self, or if there is resentment towards others.

A number nine as a first Pinnacle may mean that a career, marriage, or love affair may end with some regret or sorrow. Number nine is also the number of completion. This ending may be a blessing though, because it can remove from life things that are no longer needed for the progress and growth of the individual. These losses should be forgotten, because the number nine Pinnacle will bring something better and more rewarding, if the individuals feelings and thoughts are for universal good.

The number nine is constantly testing the character of an individual for their degree of tolerance, generosity, and compassion of the higher forces of existence. However, it also assists and rewards in every possible way.

The individual with a number nine second or third Pinnacle, may have many emotional experiences, which will probably develop their ideals.

As a final Pinnacle, the number nine can provide great opportunities to do remarkable work in the world along the lines of the chosen talents.

On any Pinnacle, the number nine's goals should be high and for the good of all mankind. The individual should guard against narrow-mindedness, and instead bring true love and tolerance to all undertakings.

The Meaning of the Challenge

The number appearing in the Challenge may also appear in other parts of your chart. If it does appear other places and again in the Challenge, there is more required of the individual, in the nature of the Challenge number. It is necessary to incorporate the nature of this number into your everyday affairs and use it to round out your character. This will greatly assist you in your quest for success and happiness.

If the number of the Challenge is not found in other areas of the chart, it is even more

important that the characteristics of this number be made a constructive part of your character.

As you observe your Challenge, you will be surprised at how often it appears in your everyday affairs. Even friends, family and business associates, who surround you, will have in their nature your Challenge number.

The rule for figuring the Challenge is as follows:

First Challenge - Subtract the digits of the month of birth and the day of birth from each other.

Second Challenge - Subtract the digits of the day of birth and year of birth from each other.

Third Challenge - Subtract the first and second challenge from each other.

Fourth Challenge - Subtract the digit of the month of birth from the digit of the year of birth. (Always subtract the smaller number from the larger number.)

The Challenge follows the same timing as the Pinnacles.

First Challenge 1 Birth to 30

With the one Challenge, you may feel you are continually being opposed, or held down, by those with a stronger will and possibly even relatives.

In the period of the one Challenge you must cultivate a steady will, fine determination, and express it with dignity and self respect.

Resentment should be avoided and little is gained by placing the blame on others. Avoid acting to headstrong, as this could lead to mistakes and unreasonable behavior.

Quick wit, originality and personal ideas should be valued and cultivated.

Second Challenge 4 From 30 to 39

The number Four Challenge is an outstanding Challenge and is not frequently found in the first three periods. The number Four is the practical number, serious and gifted with a strong sense of values. These qualities lie deep in the nature of the number Four Challenge.

Regardless of what other indications are found in the name, there is still work to do, a task to accomplish based on patient, steady, repeated efforts. Slowly and with confidence build success and material possessions. Too many changes, restlessness or going from one thing to another will not bring the permanent accomplishments possible with the Four Challenge.

The Four Challenge likes security and should work for it. The Four is capable of putting things into concrete form and works with integrity and honesty. The number Four can also be conservative and frugal.

When competitiveness is evident, more education is a great help. Too strong of opinions can create problems at times.

There is a deep desire to put ideas and concepts into concrete form. These should be brought to the surface and striven for.

Third Challenge 3 From 39 to 48

The number Three Challenge indicates that deep in the nature there is a fine imagination, a gift for words, good speech and artistic talents. However, there may be a barrier present against the full expression of these qualities. This may be due to having been repressed by others, the fear of appearing too forward, or from repression within the self.

Many artists and professional people have the Three Challenge. It is sometimes late in life before the full potential of these talents surface. The full use of creative imagination can result in the writing of a book, a painting or even a design for a lovely creation.

In seeking romance and popularity, harsh words, spoken impulsively, may bring loss of friends and the admiration so greatly desired. There is a strong dislike of personal criticism and (even though not always recognized) a deep feeling of personal importance.

Do not bury talents. Bring them out and learn the value of constructive speaking. Learn to be a real friend, interested in others as much as in the self.
