## The Meaning of Numerology

Our names are much more than just a means of identification or a family relationship. Our destiny and experiences are written in our names given to us at birth. Numerology is here to protect, guide and reward those who have the foresight and wisdom to observe and understand the influences, insight and experiences written in our names.

It has been acknowledged throughout the ages, that names play an essential part in influencing and directing the destinies of mankind and that they represent experience, human nature character and divine sanction. The importance of names is frequently brought out in the Bible. On several occasions the Lord changed the names of his chosen ones, to represent the duties and services to be carried out. There were times when a name was chosen even before birth, as in the prophecy of Jesus Christ.

Numerology shows our inherent capabilities and the spiritual commands hidden in our names and the number comprising them. It is often called the blueprint of the soul. Pythagoras gave life to Numerology by applying mathematical formulas to the name, which reveals the ultimate life goal of the person bearing the name.

Deep in the heart of everyone lies the dreams of riches, self-actualization and spiritual evolvment. The way is there and hidden in each person's name. Numerology will help you discover it.

## The Meaning of Birth Force

Everybody wants to know the secret of how to be successful. To be assured of one's future, right from the start in the business world, is a dream almost too good to be true. This can happen for you, right now if you understand. On the day you were born, a record of what you are like, what you have to offer the world, your talents and abilities were outlined. The Birth Force is what you came here to experience.

If your parents had read this valuable record, much anxiety and uncertainty could have been spared. They would have had the understanding required to direct and guide you, to help you achieve your inherent goals. The Birth Force is a great tool to use when choosing a career. It tells you what you are fitted to do. It's your innate resource of talents and abilities that you can draw upon as you go forth to meet the responsibility of your Destiny, as shown by your name at birth. Even though the Birth Force and Destiny numbers are different in purpose and meaning, they work together. If you have confidence in yourself and your natural abilities that come from your Birth Force, and work toward the goals of your Destiny influence, you will surely achieve success. By knowing yourself you will avoid feelings of insecurity. The rule for figuring the Birth Force is to add up the numbers of the month, day, and the year you were born and reduce them to a single digit.

## Your Number 4 Birth Force

Donald, your birth date makes you the practical type with outstanding qualities of

organization, trust, loyalty, dignity and devotion. You are naturally conscientious, honest and have a strong sense of right and wrong. Your values are realistic and you probably don't take chances unless the odds are good. You are naturally friendly and have a fine sense of dignity and self-worth. You like to have a plan or goal in life and work out details with patience, precision and accuracy. You have a fine ability to manage and to establish order and routine.

Number Fours are generally very loyal, sensible and down to earth, with a sensible, scientific and positive approach to life. Donald, you also possess will power, and once a decision is made, it's generally carried through to the bitter end.

The number Four Birth Force is sometimes said to be a hard path to follow, because it predicts a life of work and effort. However, it gives you the aptitude for hard work and you probably possess perseverance. When a problem presents itself, you can see it as a challenge, and seem to do better than when things are too easy. Be careful not to be too rigid, and guard against being bossy and dominant. Watch out for these negative tendencies, they can create difficulties. Instead, allow your fine powers of constructive endeavor and management to shine in your business and social affairs.

There is opportunity in occupations that require organization, attention to detail, precision, systematic routine and the ability to bring plans into concrete form.

## **The Meaning of the Heart's Desire**

Has anyone ever said to you, "Why don't you think like I do?" This remark, instead of influencing you, may have annoyed you to the point of wanting to do something completely different.

If everyone acted and thought alike, there would be no incentive to grow and develop, create or carry on. Instead, there would be no progress and no fun in living; complete boredom. Man's link in the chain of divine activity and divine principle is the right to constructive self-expression. We are born free souls and must grow and live in ever increasing attunement and beauty from within. Only then can we be true to our divine privileges, and our fellow man.

The Heart's Desire is one of the most important numbers in Numerology. It is found from the letters a-e-i-o-u in the name at birth. The Heart's Desire number will help you discover what it is you desire to be, or do.

The urge of the Heart's Desire is so strong, that at times it overrules all other traits of character; even those of the Birth Force and Destiny. At other times it may lie dormant and be repressed by circumstances until suddenly awakened, it becomes active with a surprising force, changing all well-organized plans for work and success. This inner seed of self-expression is within every person. However, not all people hear or stop to listen to the call of the soul's command and fail to gain from its life-giving energies.

If you are thinking about joining another in a domestic relationship or business affair, it is wise to know the inner nature of your loved one or associate. Even though you may have a lot in common, there will probably come a time when the inner nature of the other person (or your own) comes to the surface. This may come as a surprise, if you are not prepared, and may cause problems. However, if you are prepared, it could bring a deeper understanding and greater happiness.

The nature of the Heart's Desire never changes. In the background, the urge of man's soul is quietly taking part in his desires, interests and affairs. To summarize, the Heart's Desire is: What the individual values most, personal likes and dislikes, methods and ways of looking at things, the way the true character will be expressed, the ambition and incentive, the soul's longing, the individuality and the inner urge.

## **Your Number 7 Hearts Desire**

Deep in your heart there is a strong desire for the best life has to offer, for you are naturally discriminating and selective. Your aim is high and you strive for the perfect result. Your life and all your undertakings are governed by a keen sense of perfection. Sometimes you reach for a goal that is almost unattainable, thereby making it difficult for others to live up to your expectations of them, or for them to understand you. This does not mean, however, that you should lose sight of your ideals.

Donald, you derive great satisfaction from being sure everything is just right and your sense of the "rightness of things" is tremendously strong. You want to know the reason why and greatly desire knowledge. You do not accept things at their surface value and before allowing them in, or making them a part of your life, you seek to understand, test and prove the causes, underlying principles and motives. You refuse to accept anything, be it environment, friendship or opportunity, if it does not measure up to your standards, as your ideals are well defined.

You feel and sense higher principles, hidden values and spiritual and occult standards with which to measure life. You may seem to be analytical and mental, but you have a deep intuitive feeling. Donald, you should accept these assets in your character, and use them in your everyday affairs. If you do, they will allow you to develop and uncover the hidden laws of life for the betterment of humanity. You have a great deal of pride and are often very quiet in manner. Your desire for the best makes you particular about your partnerships.

There will be times when you will experience the urge to get away from it all, to live a life of serenity and solitude. No matter how busy and active your life is, you should take time out daily to be alone, relax, rest, study, think and meditate. This holds especially true if you have a serious problem to meet. By doing this, you will discover your inner soul guidance and make fewer mistakes.

Donald, your ability to analyze may make you appear suspicious, cool or calculating, and your natural reserve may cause others to consider you proud, distant or hard to meet.

**Watch your actions and allow others to see and discover the fine generous spirit you have hidden beneath what appears to be a cool manner, especially in love and marriage. You can bring about misunderstanding and separation by being exacting and demanding explanations from others. If others misunderstand you, seek conscientiously to overcome the misunderstanding.**

**At heart, you are an "idealist" and a "dreamer," and you love the mysterious, odd and unusual. Do not allow your reserved and quiet nature to suppress you. Instead, keep a broad faith in people and life itself. Be forgiving and kind, go forth with pride and dignity and value your desire to get the best there is out of life. Cleverness, charm and distinction are assets that you inherently possess. Let these lift you to an outstanding and specialized position in life. When your desires are realized, be sure to share with others. In this way, you'll find true happiness.**

They are at times deeply emotional and innately shy and can sometimes be a well of secrecy. All things are subjected to a keen mental analysis and each detail must be perfected before passing on to the next.**

**All seven's need to cultivate sympathy and understanding, the avoidance of melancholy and fear. They must learn to be "alone, but not lonely." The number seven prefers to live within and keeps his inner thoughts to himself. They seek quiet, silence and meditation. They can also prefer to live alone.**

## **Your Hearts Desire Testing Number 16**

**The 16/7 Testing Number or Karmic Debt as it's often called, is a test for faith and optimism of the 7. The 16/7 is the debt for illegitimate love in a previous life.**

**A person with this Testing Number may seem aloof and difficult to approach. He is often introverted and sometimes self-centered. Partnerships, marriage and friendships (though not impossible) may be difficult with these vibrations. This person must keep faith, even in the face of adversity. He must be careful not to express pride and vanity for this will only magnify the difficulties. Instead, be aware of these tendencies, love unconditionally and maintain an optimistic understanding. Seek knowledge; because growth will be proportionate to learning. The key to overcoming Karmic Debt is awareness.**

Written in the symbols of your name at birth, is the story of what you were born to do. It tells the part you will play on the stage of life, now and in the future. Life is not a matter of chance and uncertainty.

Every name given at birth is unique. It contains a divine promise and divine command of personal privilege and opportunity. In return, it demands a promise, to keep faith with the purpose written on the Destiny scroll of the name. It is a spiritual awakening to know what your name means.

Your Destiny requirements are not always easy to meet. They may include undesirable experiences you do not understand. However, as you flow with these experiences, you'll eventually swing into the full tide of accomplishments you were destined for and will experience the wonderful satisfaction of fulfilling your purpose in life.

The exact name given to you at birth tells this story. All other names, signatures, nicknames, changes of names or married names are but channels through which the Destiny is expressed and worked out. You may not be fully in performance at first, but if you keep trying, you will find it easy and finally gain the success, love and repeated rewards your name has promised you.

The Destiny number is found by adding all the letters in the name given at birth. It is your field of opportunity, your life's purpose. ## Your Number 5 Destiny

Donald, you are destined to have many changes and experiences in your life. Some of these will be forced upon you, and others will be of your own making. Your mission in life is to promote "progress" and "freedom," and to keep life moving forward. However, you may find it hard to associate yourself in a permanent way with the same people, undertakings or work. Only by letting go of the old can the new be realized, as all progress comes through new ideas, methods and change. This is a lesson you must

**learn, for you came into the world to be one of those who stand for liberty for all, as well as for the few.**

The person with the 14/5 Testing Number must learn the lesson of change and must learn not to scatter his energies by jumping around from one thing to another. He must learn to profit and learn from experiences and mistakes, instead of making the same mistakes over and over again. The person with the 14/5 tends to overindulge in liquor, drugs, food or sensuality and puts a lot of focus on physical pleasures. This person must learn the correct use of personal freedom and not scatter his energies; otherwise the negative tendencies will be intensified.

## The Meaning of the Personality

The personality will open many doors of opportunity when it's understood and made part of the character. It should be the channel through which the true character is expressed. An individual's personality does not represent the inner nature, nor is it the true self. Instead, it's the outer self; what you present when meeting others in business or social situations. There is a strong tendency to judge people by their personality. This can lead to many misunderstandings. A pleasing personality may cover up talent, weaknesses; even sincerity and honesty. On the other hand, a person with good abilities and character may be overlooked because of a dull or unattractive personality. The individual is quite often unaware of these mannerisms. As the person gets older, these traits become habits and may be very difficult to change. When attempting to get ahead in the world, it's important to combine the meaning of the personality number, to the talents of the birth force, and the more powerful urge of the heart's desire. However, when wisdom, knowledge, and understanding are attained, the individual under the seven pinnacle will have the power to attract all things.

The number seven on any pinnacle is a time for self-examination and inner poise.

### **Third Pinnacle 9 From 41 to 50**

Any individual working under a nine Pinnacle would be expected to show a great deal of tolerance and compassion for the "brotherhood of mankind". The number nine can be a difficult Pinnacle to live up to, unless the character is well developed and these thoughts and feelings are already in the make-up of the individual. It is not always easy to express love and tolerance in this somewhat confusing and hectic world.

If the lessons of compassion and tolerance have not been learned by the time a nine Pinnacle is completed, great disappointment will be realized.

This is not a time for personal recognition, as the number nine represents all people, religions, and civilizations. If the principles of the nine are expressed, then success and a full life are assured. On the other hand, the number nine can be a very unhappy Pinnacle if desires are totally for ones self, or if there is resentment towards others.

A number nine as a first Pinnacle may mean that a career, marriage, or love affair may end with some regret or sorrow. Number nine is also the number of completion. This ending may be a blessing though, because it can remove from life things that are no longer needed for the progress and growth of the individual. These losses should be forgotten, because the number nine Pinnacle will bring something better and more rewarding, if the individuals feelings and thoughts are for universal good.

The number nine is constantly testing the character of an individual for their degree of tolerance, generosity, and compassion of the higher forces of existence. However, it also assists and rewards in every possible way.

**The individual with a number nine second or third Pinnacle, may have many emotional experiences, which will probably develop their ideals.**

**As a final Pinnacle, the number nine can provide great opportunities to do remarkable work in the world along the lines of the chosen talents.**

**On any Pinnacle, the number nine's goals should be high and for the good of all mankind. The individual should guard against narrow-mindedness, and instead bring true love and tolerance to all undertakings.**

## **Fourth Pinnacle 8 From 59 to Death**

**The number eight as a first pinnacle indicates an early career in the business or professional world and a fine start in life. However, the individual may be forced to be the means of support for the relatives or family.**

**The number eight means authority, strength, courage, and ambition, and on any pinnacle can be a time of successful financial and material gain.**

**The individual on any eight pinnacle may find themselves in charge of property, business, or professional undertakings which depend on repeated effort for success. An eight pinnacle can be difficult at times, as it will demand full use of application and intelligence, and will not tolerate weakness or any efforts to avoid facing the issue. It is not a time to trust to luck, but requires intelligence, efficiency and good management.**

**Good understanding and judgment of people is necessary, as many disappointments and problems may be encountered through a misplaced trust in others.**

**Authority and recognition is promised during any eight pinnacle. However, expenses may be high, so careful management and budgeting of the affairs is necessary. Friendship and support comes through an interest in organizations and societies.**

**During any eight pinnacle, the individual should work intelligently, rather than emotionally, and should cultivate balance and judgment.**

## **The Meaning of the Challenge**

**The number appearing in the Challenge may also appear in other parts of your chart. If it does appear other places and again in the Challenge, there is more required of the individual, in the nature of the Challenge number. It is necessary to incorporate the nature of this number into your everyday affairs and use it to round out your character. This will greatly assist you in your quest for success and happiness.**

If the number of the Challenge is not found in other areas of the chart, it is even more important that the characteristics of this number be made a constructive part of your character.

As you observe your Challenge, you will be surprised at how often it appears in your everyday affairs. Even friends, family and business associates, who surround you, will have in their nature your Challenge number.

The rule for figuring the Challenge is as follows:

**First Challenge - Subtract the digits of the month of birth and the day of birth from each other.**

**Second Challenge - Subtract the digits of the day of birth and year of birth from each other.**

**Third Challenge - Subtract the first and second challenge from each other.**

**Fourth Challenge - Subtract the digit of the month of birth from the digit of the year of birth. (Always subtract the smaller number from the larger number.)**

The Challenge follows the same timing as the Pinnacles.

### **First Challenge 1 Birth to 32**

With the one Challenge, you may feel you are continually being opposed, or held down, by those with a stronger will and possibly even relatives.

In the period of the one Challenge you must cultivate a steady will, fine determination, and express it with dignity and self respect.

Resentment should be avoided and little is gained by placing the blame on others. Avoid acting to headstrong, as this could lead to mistakes and unreasonable behavior.

Quick wit, originality and personal ideas should be valued and cultivated.

### **Second Challenge 3 From 32 to 41**

The number Three Challenge indicates that deep in the nature there is a fine imagination,

a gift for words, good speech and artistic talents. However, there may be a barrier present against the full expression of these qualities. This may be due to having been repressed by others, the fear of appearing too forward, or from repression within the self.

Many artists and professional people have the Three Challenge. It is sometimes late in life before the full potential of these talents surface. The full use of creative imagination can result in the writing of a book, a painting or even a design for a lovely creation.

In seeking romance and popularity, harsh words, spoken impulsively, may bring loss of friends and the admiration so greatly desired. There is a strong dislike of personal criticism and (even though not always recognized) a deep feeling of personal importance.

Do not bury talents. Bring them out and learn the value of constructive speaking. Learn to be a real friend, interested in others as much as in the self.

### **Third Challenge 2 From 41 to 50**

The number two challenge is one of the most commonly found, for the quality of sensitiveness is natural to the human race. It is a very fine characteristic. Without it, response to the fitness of things would be lacking and the coarse rude phrases of life would predominate. When hyper sensitiveness is allowed to take over, it can represent fear, timidity, or lack of self-confidence and can be a source of deep suffering. A feeling of subordination often prevents success and gives a tendency to be unduly influenced by what others think or say. Sensitiveness represents intelligence and undertaking of finer relationships of life. It is only when it is allowed to become hurt feelings, jealousies and fear of people that it is negative. The number two challenge should value its natural talent for relating facts, perfecting details and for knowing what is correct and right. The cultivation of harmony and decorum gives self-confidence and the feeling of usefulness.
