The Meaning of Numerology

Our names are much more than just a means of identification or a family relationship. Our destiny and experiences are written in our names given to us at birth. Numerology is here to protect, guide and reward those who have the foresight and wisdom to observe and understand the influences, insight and experiences written in our names.

It has been acknowledged throughout the ages, that names play an essential part in influencing and directing the destinies of mankind and that they represent experience, human nature character and divine sanction. The importance of names is frequently brought out in the Bible. On several occasions the Lord changed the names of his chosen ones, to represent the duties and services to be carried out. There were times when a name was chosen even before birth, as in the prophecy of Jesus Christ.

Numerology shows our inherent capabilities and the spiritual commands hidden in our names and the number comprising them. It is often called the blueprint of the soul. Pythagoras gave life to Numerology by applying mathematical formulas to the name, which reveals the ultimate life goal of the person bearing the name.

Deep in the heart of everyone lies the dreams of riches, self-actualization and spiritual evolvment. The way is there and hidden in each person's name. Numerology will help you discover it.

The Meaning of Birth Force

Everybody wants to know the secret of how to be successful. To be assured of one's future, right from the start in the business world, is a dream almost too good to be true. This can happen for you, right now if you understand. On the day you were born, a record of what you are like, what you have to offer the world, your talents and abilities were outlined. The Birth Force is what you came here to experience.

If your parents had read this valuable record, much anxiety and uncertainty could have been spared. They would have had the understanding required to direct and guide you, to help you achieve your inherent goals. The Birth Force is a great tool to use when choosing a career. It tells you what you are fitted to do. It's your innate resource of talents and abilities that you can draw upon as you go forth to meet the responsibility of your Destiny, as shown by your name at birth. Even though the Birth Force and Destiny numbers are different in purpose and meaning, they work together. If you have confidence in yourself and your natural abilities that come from your Birth Force, and work toward the goals of your Destiny influence, you will surely achieve success. By knowing yourself you will avoid feelings of insecurity. The rule for figuring the Birth Force is to add up the numbers of the month, day, and the year you were born and reduce them to a single digit.

Your Number 3 Birth Force

Hillary, your birth date 10/26/1947, makes you creative, artistic, imaginative, and possess

deep emotional feeling and inspiration. You have a natural gift to express yourself in words and the use of this capability could bring financial possibilities.

Friendship and social standing will come to you through your ability to entertain and inspire others. Many entertainers are found with the number three birth force, as they are bright, sparkling people, with a highly optimistic attitude.

You are very conscious of other people's feelings and emotions, and have a natural ability to brighten up bad situations. Hillary, you generally have a cheerful and happy disposition, and are naturally accommodating and helpful to those in need. Freedom is very important to the number three, and the confines of a home or office are not easily accepted. You have a very expressive artistic ability, and are social, outgoing and creative.

You have the desire to do things on a large scale and have good intuition to guide you. Be careful not to let your emotions drive you in the wrong direction or influence your optimistic outlook. Beware of frivolous spending and spreading yourself too thin. Understand your ambitions and carry them out, but avoid going too far, or letting your emotions get the best of you.

Hillary, you are very sensitive and should avoid withdrawing into yourself when hurt or criticized. At times you can be critical of others also, and consciously or not, can become self-centered and selfish which can cause problems in your relationships. You have excellent powers of attraction and if you are not getting the most out of life, you should look to yourself for the reasons why. You can change your luck at any time by putting your imagination to work.

There is opportunity for you in all fields of artistic endeavors, writing, entertainment, fashion, religious activities, and psychic pursuits. Any position that offers lack of routine, freedom of expression, feeling and emotion and the stimulation of meeting new people will be of interest to you.

The Meaning of the Hearts Desire

Has anyone ever said to you, "Why don't you think like I do?" This remark, instead of influencing you, may have annoyed you to the point of wanting to do something completely different.

If everyone acted and thought alike, there would be no incentive to grow and develop, create or carry on. Instead, there would be no progress and no fun in living; complete boredom. Man's link in the chain of divine activity and divine principle is the right to constructive self-expression. We are born free souls and must grow and live in ever increasing attunement and beauty from within. Only then can we be true to our divine privileges, and our fellow man.

The Heart's Desire is one of the most important numbers in Numerology. It is found from the letters a-e-i-o-u in the name at birth. The Heart's Desire number will help you discover what it is you desire to be, or do.

The urge of the Heart's Desire is so strong, that at times it overrules all other traits of character; even those of the Birth Force and Destiny. At other times it may lie dormant and be repressed by circumstances until suddenly awakened, it becomes active with a surprising force, changing all well-organized plans for work and success. This inner seed of self-expression is within every person. However, not all people hear or stop to listen to the call of the soul's command and fail to gain from its life-giving energies.

If you are thinking about joining another in a domestic relationship or business affair, it is wise to know the inner nature of your loved one or associate. Even though you may have a lot in common, there will probably come a time when the inner nature of the other person (or your own) comes to the surface. This may come as a surprise, if you are not prepared, and may cause problems. However, if you are prepared, it could bring a deeper understanding and greater happiness.

The nature of the Heart's Desire never changes. In the background, the urge of man's soul is quietly taking part in his desires, interests and affairs. To summarize, the Heart's Desire is: What the individual values most, personal likes and dislikes, methods and ways of looking at things, the way the true character will be expressed, the ambition and incentive, the soul's longing, the individuality and the inner urge.

Your Number 5 Hearts Desire

Hillary, you want variety, change, and constant new opportunities in your life, with personal freedom in every direction. You will not submit to routine or detail, and will not be hampered by the conventions or ideas of others.

What is going on in the world interests you, and you desire to be a part of it in some way. You will seek an opportunity to express yourself through groups or public activity, as you are enthusiastic and enjoy life.

The exciting and unexpected stimulate you more than the ordinary activities of everyday existence. You are considerate of others, but at the same time are independent in thought and action, and insist upon the right to live your own life and follow your own ideals. Hillary, you are not at your best when forced to remain in the same place for too long, and become easily bored if routine takes over your work.

Change things from time to time and include the new, different and exciting, to give your life variety and spice. If you lack variety and freedom, you may become discontent, which could cause you to act in a hasty or impulsive manner. If you learn to recognize this unrest, you can turn it into worthwhile resourcefulness and action, instead of impatience, and develop an amazing power to accomplish things. You are ambitious and want to succeed, but should avoid scattering your energies and taking on more than you can

handle. Too much variety and change can result in a lack of concentration and application. Then nothing is accomplished. If you feel yourself getting irritable or restless, take a trip, buy something new, or make some constructive change, which will improve your work or environment. Be careful not to criticize others, or tear things down for the sake of change, as your own impatience and restlessness may be at fault. Keep in touch with what is going on in the world. Value your resourcefulness, and claim your freedom, but keep in mind that freedom does not mean being unconventional or breaking the standards of living. It does mean living a fuller, richer life and helping others to do the same.

Number fives love to travel, seek many varied interests, and are able to adapt to almost any type of situation. They are progressive, emotional, intellectual, versatile, and often spiritual. All fives need to cultivate a steady purpose, patience and loyalty.

The Meaning of the Destiny

"What are my chances for success in this life and what does life hold in store for me?" These are questions asked again and again by intelligent people, searching to find themselves and their right place in life.

Written in the symbols of your name at birth, is the story of what you were born to do. It tells the part you will play on the stage of life, now and in the future. Life is not a matter of chance and uncertainty.

Every name given at birth is unique. It contains a divine promise and divine command of personal privilege and opportunity. In return, it demands a promise, to keep faith with the purpose written on the Destiny scroll of the name. It is a spiritual awakening to know what your name means.

Your Destiny requirements are not always easy to meet. They may include undesirable experiences you do not understand. However, as you flow with these experiences, you'll eventually swing into the full tide of accomplishments you were destined for and will experience the wonderful satisfaction of fulfilling your purpose in life.

The exact name given to you at birth tells this story. All other names, signatures, nicknames, changes of names or married names are but channels through which the Destiny is expressed and worked out. You may not be fully in performance at first, but if you keep trying, you will find it easy and finally gain the success, love and repeated rewards your name has promised you.

The Destiny number is found by adding all the letters in the name given at birth. It is your field of opportunity, your life's purpose. It is what must be given of yourself to others and to life and what you must live up to in this lifetime. Your Destiny will tell you the environment you require and the kind of people you need to surround yourself with. It also explains the spiritual mission to which you have been appointed. Don't read it as "what you are", read it "what you must do".

Throughout your lifetime, the Destiny requirements remain the same. They can never be neglected. Many experiences brought about through your Destiny number will test your willingness to be true to the purpose of your birth.

Your Number 6 Destiny

Hillary, you are the "humanitarian" and it is your destiny to be of service to the world. Your mission in life is to comfort the weak, suffering and unhappy. Your personal happiness and success will depend upon how much good you can do and upon the sympathy and love you have to give to those who ask for it or need it.

Out in the world and at home, duty will follow you down life's pathway. You should not sacrifice your life for duty however, for the world looks to you to maintain its ideals of truth, justice, service and charity. Your destiny is also an artistic one, and part of your life's work is to beautify this world of ours.

If you wish to get the reward of honor which your name destines you to, the ideals of love and companionship, beauty and harmony, must be incorporated into everything you do. Nature and mankind, homes, gardens and flowers should spring into beauty at your touch.

You are a teacher too, and must keep the golden rule of truth and justice before the hearts and minds of people. When trouble knocks at another's door, give a helping hand and don't compromise with your ideals at any time. By being true to your destiny, you will find yourself surrounded by comfort and luxury, love, and a happy home life.

You should join with those who are also working to serve humanity. Poets, dreamers, actors, singers, musicians, doctors and nurses should be among your friends. Your own talents will be awakened when you join activities having to do with theater, radio, interior decorating, flowers, art, gardens, music, building of homes and along the lines of literature. Welfare work, religious activities, all lines of race education-especially those dealing with children and the helpless, give you special interest and open your field of usefulness.

Opportunity also as a teacher, writer, dealer in food or home necessities, restaurant or tea-room manager, hotel executive, professional guardian, mothers helper, or matron.

It is important for all six's to have a position of trust and responsibility. They can regulate, adjust and harmonize. They are successful in all occupations having to do with projects or institutions to improve material, educational or civil conditions. They are concerned with the training of the young, the care of the old, and the improvement of the entire community.

The Meaning of the Personality

The personality will open many doors of opportunity when it's understood and made part of the character. It should be the channel through which the true character is expressed. An individual's personality does not represent the inner nature, nor is it the true self. Instead, it's the outer self; what you present when meeting others in business or social situations. There is a strong tendency to judge people by their personality. This can lead to many misunderstandings. A pleasing personality may cover up talent, weaknesses; even sincerity and honesty. On the other hand, a person with good abilities and character may be overlooked because of a dull or unattractive personality. The individual is quite often unaware of these mannerisms. As the person gets older, these traits become habits and may be very difficult to change. When attempting to get ahead in the world, it's important to combine the meaning of the personality number, to the talents of the birth force, and the more powerful urge of the heart's desire. This will allow for true character building. Since the personality is the way we express ourselves, it's important to be in harmony with this number when expressing ourselves. The personality number is found by adding all the consonants in the name given at birth, and reducing them to a single digit.

Your Number 3 Personality

The number three personality is easy to talk to and generally friendly. Because of its artistic nature, the three likes to wear fancy clothing with bows and ribbons, as well as jewelry.

The number three should not wear extreme styles or overdress, but should be attractively dressed and wear clothing of good material.

Hillary, your imagination pictures you as attractive, popular and sought after. You see yourself expressing in art forms, shedding happiness and beauty wherever you go. All your doings and sayings are applauded and you always have an appreciative audience.

The Meaning of the Reality

We all hope for security in the final stage of life. Some people prepare and plan for this period, while others avoid even thinking about it. The Reality number should be kept in mind your entire life. It explains the influences that will affect you during the final stage of life.

Your life was outlined the day you were born. If the Reality number is taken into consideration early in life, the latter days can be as successful, enjoyable, interesting and secure as any other time in life. This is one more thing to take into consideration to help guide you. It is found by adding your Destiny number to your Birth Force.

The Reality number's influence is very subtle. Many people are unaware of its persuasive presence. In young children, it is very noticeable in their personal interests and by the way they act. However, the demands of the Destiny number, personal ambitions and the need to earn a living take over and the Reality number is forced into the background. But it is always there and comes to the surface as the years pass by. The Reality number

gives a new perspective to old age. It is no longer something to be feared.

Your Number 9 Reality

The realization of the "brotherhood of man," and service to mankind, are the rewards for the number nine reality in the latter days of life.

Part of the victory is to rise above the fears and jealousies of mankind.

The world of art, drama, beauty, and literature in all its forms, give financially and personal reward.

The Meaning of the Karmic Lessons

The numbers missing in the name at birth, indicate experiences avoided, or handled negatively in the past. The ultimate goal is to include all of the vibrations in a balanced quantity. When this is accomplished, the obligation for reincarnation no longer exists, and we will move on to the next stage of evolution. Those who have many numbers missing have many karmic lessons to learn. Don't fear these; it is what you came here to work on. By accepting and realizing the necessity of our lessons, we will have an easier time learning them. If we fear it, it's only because we are ignorant of the advantages it can bring us. Don't wait for life to teach you about it or you may first experience its more difficult side. Accept it consciously and willingly and you may benefit from and even enjoy the experiences it brings about. If you find that the characteristics of your Karmic lessons don't seem to fit, it's possible you have already made up your Karma.

The missing number or numbers may appear elsewhere in the chart as in the Destiny, Heart's Desire or the Birth Force. This may cushion the Law of Karma, but you still need to experience the vibrations of these numbers until compensation is made and the karma is erased.

Many Ones Lesson

Many ones in the name shows strong opinions, and the ability to influence others. However, you could become fixed in your ideas. Individuals with many ones will probably possess leadership qualities and a strong sense of determination. You may be aggressive and have a large supply of vital energy.

None/Few Twos Lesson

No twos or few twos may show carelessness to details, lack of adaptability, an unwillingness to cooperate, and a lack of consideration for others. These individuals often lack the ability or desire to pay attention to detail and patience is not one of their virtues. Small things may be overlooked or neglected, and there is a tendency to disregard time and appointments. Life will force the individual with no or few twos into situations where nothing can be achieved without great patience and attention to detail.

They will be obliged to mix with others and will need to use tact, diplomacy and friendliness to accomplish their purpose. They may prefer to work alone, but will find themselves in need of help. Often the urge to make up the karma produces a desire for collection. Without this urge, however, everything slips away, and nothing is saved.

Average Threes Lesson

One three in a name is average; however, two threes are not uncommon. The number three gives the ability to express the feelings and ideas into written or spoken words. It represents enthusiasm, imagination and creative talent. It is a happy number and likes to do big things. Individuals with many four's in their name generally have a strong sense of values, a willingness to work, and a love of form. However, they can also show stubbornness and narrow-mindedness. The ability to establish practices of a lasting nature is present, as with all four's.

Many Fives Lesson

Many fives in the name give way to a restless nature, an interest in too many things and a lack of application. The tendency is also to move suddenly from one interest or line of work to another, without completing either the work or the task at hand. Individuals with many fives in their name would do well in a line of business that would bring them into contact with the public and people in general. There is opportunity through all types of salesmanship and through civil and legal activities. Unless their home life is filled with a great deal of variety and interesting people, they are not generally domestically inclined. They must guard against being critical of others.

Average Sixes Lesson

The number six loves luxuries and the comfortable things of life, the home and the beautiful. It has a willingness to take responsibility and a keen sense of right and wrong. It is the number of the idealist, the humanitarian, the teacher, the physician and the one who is interested in children and welfare work. One six in a name will give these qualities.

Average Sevens Lesson

One seven in the name will give the quality of analysis, observation, investigation and a demanding to know the reason why. It provides good judgement and the ability to look

under the surface, with a sense of perfection and intuitive perceptions. The number seven is often missing in a person's name.

Many Eights Lesson

An individual with many eights, (even two eights), can show too much drive to accomplish plans or work, and too much energy is spent striving after money and position. They are generally in an executive position and are an authority in some area. They may have literary ability and make fine judges of character. An individual with many eights in their name may find life hard, with many personal tests and frustrations.

Many Nines Lesson

The individual with many nines in their name will show humanitarianism, impressionability, emotionalism, generosity and artistic ability. They can sometimes lack emotional balance or practical direction, and can be difficult to reason with. They are usually forgiven because of the generosity that is in their nature. Many nines can make the individual moody or overly sensitive, and he should watch his physical health.

The Meaning of the Personal Year

The Personal Year number is one of the most important and useful numbers in Numerology.

Every year brings its own number. This number reveals the circumstances that will be encountered during the current year. The Personal Year number shows how to get the most from the experiences during a particular year, how to direct personal affairs and how to avoid trouble.

The Personal Year number does not stand-alone. It is a supporting and directing force, year by year. It does, however, make its own demands and has its own identity for each year of life.

Knowing how the cycles of life influence us can give us answers to many of our problems. At the start of a new cycle there is a strong desire to be up and doing, to move ahead and begin new things. There is new motivation and a strong impulse to get things done. As a cycle comes to an end, there is a desire to be done with things, or situations.

Throughout life, everyone is confronted with these beginnings and endings. It is only when we fear change and fail to move ahead that distress and hardships continue. The Personal Year number has many interesting things to tell and one can benefit a great deal by taking advantage of this number.

The rule for finding the Personal Year number is to add the digit of your month and the digit of your day of birth to the sum digit of the current year.

Your Number 9 Personal Year

This is your year for completion. Many of your affairs will be brought to a head this year; completing a cycle of experience that began nine years ago, preparing you for a new nine year life cycle. Hillary, you will need to get your affairs in order this year, to make way for the new beginnings of next year. You will feel the need to discard the old and make way for the new. It is important that you be through with things that have no further value, nothing should be carried forward that can be left behind.

At times during the year, you may feel alone and held back, feeling unable to keep things moving in a steady manner. Allow life the opportunity to help you out, and keep in mind that although your plans and goals can be born now, they may not be fully carried out until next year, when your new cycle begins.

This is a good year for study and contemplation, and a time to look within for the inner spirit. Cultivate writing and music, nature and the arts. Express your love and compassion to all. If you are tolerant/ loving and compassionate, you will be rewarded with love and understanding.

This is a friendship year, and you must be willing to sacrifice yourself materially and sometimes emotionally for others. You may also feel the need to get away from it all and commune with nature. Keep a close eye on your health and do not overwork, as you have much to do next year.

If a person or condition in your life desires freedom, let it go. This will be for your own good, and is clearing the way to your future happiness. Keep your interests of a universal nature, and avoid being small or personal in your thoughts and actions. Much of your success this year will depend on what you do for others.

This can be one of the most satisfying and rewarding years of your life, filled with love, happiness and achievement.

The Meaning of the Essence

Each letter that makes up the Essence describes the nature of events to be met during that particular period of time. The Essence is under the direction of the Pinnacle and guided by the Personal Year. All letters and numbers represent the actual experiences taking place.

When the Essence is understood and used as a tool, you can anticipate the events and challenges sure to be encountered during that particular time frame. A bridge to the future is established, creating awareness, which provides the opportunity to encounter situations with knowledge and insight.

When the group of letters that make up your Essence seem hard, don't read it negatively. Remember - all numbers and letters are good and represent privilege and opportunity in their own special way. Understanding the Essence will help you to find the best way to walk life's path, while under that influence. Difficult periods occur in every one's life, but by knowing what to expect and how to take advantage of the opportunities present or seemingly hidden in each letter and number, life can become a pleasure and a victory.

Your Number 5 Essence For Full Year

The number Five Essence is a progressive period. Unexpected events and changes are likely but should be beneficial in the long run. This is a time to move forward. Accept the opportunity to gain more freedom. Prepare for new experiences and be creative in all undertakings. This is an active period; it brings new contacts, worldly interests, public activity and travel.

A sudden event which may at first cause you confusion and doubt may clear the way for progress. When you welcome change, new and exciting aspects of life will be evident. This is a period of excitement and social activity. Be careful not to have too many things going at once, as this could scatter your energies and lead confusion or loss. Anxiety and impatience can defeat the purpose of this period and cause problems. Avoid disputes that could delay the progress and freedom this period represents.

A Five Essence continually provides the opportunity to move forward, or to break free from old conditions. It takes down boundaries and limitations, but at the same time demands order and attention to rules and regulations.

The Meaning of the Pinnacle

The Pinnacles are well-defined paths which indicate the direction of experience during the individuals four periods of life. They are instructive and protective.

When the Pinnacles are realized and understood, they can be prepared for ahead of time, and the heights of attainment indicated by each Pinnacles number can be fully reached and utilized. It is sometimes hard to account for the sudden changes or unexpected conditions that take place in our lives. We may suddenly change our associations, line of work, or complete lifestyle. When we realize, however, that change means progress, we then have a chance to succeed. These changes are revealed to us by the Pinnacles and will operate regardless of any other numbers on our birth chart.

No one can escape the Pinnacles or the valuable experience gained by them. The signposts hold true for the aware, as well as the common individual. The aware, however, welcome these experiences and realize that through change there is growth, while the ordinary man calls them fate and may not see the true purpose behind the experiences.

The first Pinnacle is very personal and begins when we are born representing the spring

of life.

The second Pinnacle moves quickly by, having a period of nine years. It represents the summer of life; a time for family and responsibility.

The third Pinnacle also covers a period of nine years, and represents the more mature states of mind. It is the middle age, and covers the autumn of human experience.

The fourth Pinnacle represents the winter of life, and will continue until the end of our earthly existence. It is during this time that we can cultivate the experiences of the past for opportunity and success and should work for the human and spiritual welfare of mankind.

Each characteristic of the Pinnacle should be utilized to its fullest and be recognized as a period of development, progress, and growth. The rule for figuring the Pinnacles is as follows:

First Pinnacle - The sum of the digits of the month and the digits of the day of birth.

Second Pinnacle - The sum of the digits of the day and the digits of the year of birth.

Third Pinnacle - The addition of these two numbers. (First and Second Pinnacles)

Fourth Pinnacle - The sum of the digits of the month and the digits of the year of birth.

The rule for timing the Pinnacles is as follows:

Start with the number 36. From the number 36, subtract the number of the Birth Force. This will give you the period of time the first Pinnacle is active, and tells at what age it's influence will end.

Next, add nine years to the age the first Pinnacle ended. This is the period of time the second Pinnacle is influential.

Add nine years again to the age the second Pinnacle ended. This will be the period of time the third Pinnacle is in effect.

The fourth Pinnacle will be in affect from the end of the third Pinnacle until death.

First Pinnacle 9 Birth to 33

Any individual working under a nine Pinnacle would be expected to show a great deal of tolerance and compassion for the "brotherhood of mankind". The number nine can be a difficult Pinnacle to live up to, unless the character is well developed and these thoughts and feelings are already in the make-up of the individual. It is not always easy to express love and tolerance in this somewhat confusing and hectic world.

If the lessons of compassion and tolerance have not been learned by the time a nine Pinnacle is completed, great disappointment will be realized.

This is not a time for personal recognition, as the number nine represents all people, religions, and civilizations. If the principles of the nine are expressed, then success and a full life are assured. On the other hand, the number nine can be a very unhappy Pinnacle if desires are totally for ones self, or if there is resentment towards others.

A number nine as a first Pinnacle may mean that a career, marriage, or love affair may end with some regret or sorrow. Number nine is also the number of completion. This ending may be a blessing though, because it can remove from life things that are no longer needed for the progress and growth of the individual. These losses should be forgotten, because the number nine Pinnacle will bring something better and more rewarding, if the individuals feelings and thoughts are for universal good.

The number nine is constantly testing the character of an individual for their degree of tolerance, generosity, and compassion of the higher forces of existence. However, it also assists and rewards in every possible way.

The individual with a number nine second or third Pinnacle, may have many emotional experiences, which will probably develop their ideals.

As a final Pinnacle, the number nine can provide great opportunities to do remarkable work in the world along the lines of the chosen talents.

On any Pinnacle, the number nine's goals should be high and for the good of all mankind. The individual should guard against narrow-mindedness, and instead bring true love and tolerance to all undertakings.

Second Pinnacle 11 From 33 to 42

When the number one appears on any Pinnacle, it will force the individual to forge ahead, and stand on his or her own feet. This is the number of individuality, leadership, and executive ability.

If this is a first Pinnacle, it may be a hard period, as this individual may not be ready to meet life with initiative and force, and may rebel from the hard experiences which must be met to bring out the powers of executive ability and leadership. It's possible the

younger person on a number one Pinnacle has too much self-importance or is too headstrong, showing a great deal of egotism, and in turn resists direction. The younger person may be hard to understand or direct, until they can focus their talents in the right direction.

If the number one is found on any Pinnacle, it will force the individual to act and think for themselves; to stand up and face life. With women, this can sometimes be quite sudden or unexpected, but at the same time there is opportunity to move ahead and develop talents.

If the number one is found on a second or third Pinnacle, it is an indication of new beginnings and an opportunity to make use of personal ideas.

The number one as a final Pinnacle may present the opportunity to put the ideas developed during other Pinnacle periods to work. Unexpressed desires may also be carried out at this time, and there is opportunity to be at the head of business or social undertakings.

This is a forceful period and at times it can be a difficult period of life, as it demands courage and determination. A number one on any Pinnacle is sure to bring activity, change, independence and individuality.

Third Pinnacle 2 From 42 to 51

The number two as a first pinnacle may make a younger person seem unable to grasp things or overly sensitive. Parents who are aware of this can help the individual by establishing good associations and providing a good solid education. They should also be aware of the younger persons abilities and talents, and of the sensitive forces that are operating at this time.

The number two on any pinnacle means partnerships and associations, and brings involvement with people either in home or in business. It is not a time for independence, but rather a time to prove the ability to get on well with others.

The person in a two pinnacle may have to learn sharing, cooperation, patience, and a consideration of others. There is often a feeling for details, and a fine statistical ability.

The number two on any pinnacle must guard against difficulties in associations, partnerships, and friendships. Quarrels and separations can arise if cooperation is not maintained.

In any two pinnacle, there may be a breaking of an association and a spiritual lesson to be learned. Individuals may turn to religion or spiritual work, and there is also opportunity through unusual lines of activity.

On any two pinnacle, a major change in the life almost always ends up for the better, as it deepens the understanding of the individual and of the rights of others. It can be an excellent pinnacle, bringing warmth, friends, a happy marriage, and close associations.

Fourth Pinnacle 4 From 60 to Death

The number four as a first pinnacle often finds the younger person responding to practical and serious ideas, and often the individual will find work early in life.

The number four is the number of order, system, and application. It is the builder, seeking results of a concrete nature. By placing facts and ideas in their proper order, the number four has the ability to manage and direct.

The work of the four pinnacle generally lays a good solid foundation for the future; however, there is usually much hard work and may be economic problems. On any four pinnacle, the individual must work for system, management, and organization, to get the desired results. However, this could very well be the perfect opportunity to put the plans and ideas only dreamed of in the past into concrete form during this four pinnacle.

This is not a leisure time, however, and any character not willing to face the practical aspects of life may find that economical management and endeavor cannot be avoided.

During a four pinnacle, it may be the first time to experience the opportunity to work, build, and get results in a serious and worthwhile manner.

This is a period of intense work, but it is also a very good time to build solid foundations, and the desires and results will come through continued effort and application.

The Meaning of the Challenge

First Challenge 7 Birth to 33

The number Seven Challenge may bring a feeling of aloneness and separation, this must be overcome. The Seven Challenge must dig down and bring its understanding, knowledge and gift of knowing in a special way, to the surface for the good of the world. There is usually a big test or repression in life and affairs; this is sometimes too much pride, and a reserve which holds the feeling hidden and underneath the surface. The Challenge may be something that has happened in the family life or in its own life, which is kept hidden or which is considered an embarrassment. The Seven Challenge should forgive and forget and meet the barriers by being more real and natural, but also through cultivating the powers of analysis and discrimination within your nature. The ability to know the real from the false in business, work or in association is an asset and a source of power. The Seven Challenge wants much. It can attract the best in life when it takes the time to study, learn and perfect its skills in the technical, educational and specialized fields.

Second Challenge 5 From 33 to 42

The number Five Challenge becomes a fine asset when working in public view. Especially if it allows for promotion, travel, publicity and contact with crowds or large groups. However when the restless nature of the Five is allowed to dominate real satisfaction from accomplishments may never be reached, especially if criticism and strong dislikes are allowed to develop.

The number Five Challenge will bring a deep desire for personal freedom, which can bring about resentment and impatience, primarily when the desire to be elsewhere is thwarted. The desire to escape responsibility can cause mistakes in the selection of

place and associations.

To achieve success, make use of quick perception, resourcefulness and interest in life. Avoid restlessness, which can defeat you. A Five Challenge does not like to be confined. It needs new contacts and new places from time to time, but also clings to old traditions.

Third Challenge 2 From 42 to 51

Fourth Challenge 2 From 51 to Death

The number two challenge is one of the most commonly found, for the quality of sensitiveness is natural to the human race. It is a very fine characteristic. Without it, response to the fitness of things would be lacking and the coarse rude phrases of life would predominate. When hyper sensitiveness is allowed to take over, it can represent fear, timidity, or lack of self-confidence and can be a source of deep suffering. A feeling of subordination often prevents success and gives a tendency to be unduly influenced by what others think or say. Sensitiveness represents intelligence and undertaking of finer relationships of life. It is only when it is allowed to become hurt feelings, jealousies and fear of people that it is negative. The number two challenge should value its natural talent for relating facts, perfecting details and for knowing what is correct and right. The cultivation of harmony and decorum gives self-confidence and the feeling of usefulness.
