The Meaning of Numerology

Our names are much more than just a means of identification or a family relationship. Our destiny and experiences are written in our names given to us at birth. Numerology is here to protect, guide and reward those who have the foresight and wisdom to observe and understand the influences, insight and experiences written in our names.

It has been acknowledged throughout the ages, that names play an essential part in influencing and directing the destinies of mankind and that they represent experience, human nature character and divine sanction. The importance of names is frequently brought out in the Bible. On several occasions the Lord changed the names of his chosen ones, to represent the duties and services to be carried out. There were times when a name was chosen even before birth, as in the prophecy of Jesus Christ.

Numerology shows our inherent capabilities and the spiritual commands hidden in our names and the number comprising them. It is often called the blueprint of the soul. Pythagoras gave life to Numerology by applying mathematical formulas to the name, which reveals the ultimate life goal of the person bearing the name.

Deep in the heart of everyone lies the dreams of riches, self-actualization and spiritual evolvment. The way is there and hidden in each person's name. Numerology will help you discover it.

The Meaning of Birth Force

Everybody wants to know the secret of how to be successful. To be assured of one's future, right from the start in the business world, is a dream almost too good to be true. This can happen for you, right now if you understand. On the day you were born, a record of what you are like, what you have to offer the world, your talents and abilities were outlined. The Birth Force is what you came here to experience.

If your parents had read this valuable record, much anxiety and uncertainty could have been spared. They would have had the understanding required to direct and guide you, to help you achieve your inherent goals. The Birth Force is a great tool to use when choosing a career. It tells you what you are fitted to do. It's your innate resource of talents and abilities that you can draw upon as you go forth to meet the responsibility of your Destiny, as shown by your name at birth. Even though the Birth Force and Destiny numbers are different in purpose and meaning, they work together. If you have confidence in yourself and your natural abilities that come from your Birth Force, and work toward the goals of your Destiny influence, you will surely achieve success. By knowing yourself you will avoid feelings of insecurity. The rule for figuring the Birth Force is to add up the numbers of the month, day, and the year you were born and reduce them to a single digit.

Your Number 11 Birth Force

Barak, your birth date 08/04/1961, gives you a strong sense of individuality and you are

the leader type, demanding the right to act and think according to your own convictions and ideas. You have the ability to lead and direct others and to establish your own business if you wish. You have courage, will power, good concentration, executive ability and a good sense of perception. When you utilize your creativity, you are capable of overcoming any barriers to success. Barak, your flair for taking charge of any given situation, and because of your creative inspiration, you have the ability to lead others far beyond their normal limits. You will quickly climb to the top in whatever you choose to do, and others will look to you for your strong leadership qualities. You have a good sense of humor, and are generally selective in friendships.

You have strong powers of attraction, which can lead to interesting experiences or lines of work. Barak, you will be living up to your Birth Force if you maintain your originality, establish new ideas, and be your own person. A life of positive achievement and constructive action is open to the number One Birth Force. You will be required, however, to develop the body, mind and spirit to the highest point of efficiency. You must become independent and refuse limitations.

The negative side of your character has a tendency to be over-confident, egotistic and dominant. At times you could even be bossy and impatient with others. You may refuse the advice of others and act in total self-interest. Avoid allowing these negative tendencies to become set or fixed habits.

There is unlimited opportunity for the number One Birth Force through mental interests and undertakings. It's natural for those with this Birth Force to be self-employed. However, if you do choose to work for someone else, make sure the job offers freedom and decision making. If you are given enough authority in your occupation, you could produce outstanding results. All fields of opportunity are open to you. Careers that are outside the "norm" may interest you. Barak, your originality, executive abilities and initiative could bring you much success. Your originality in any career will ultimately lead to success.

The Meaning of the Hearts Desire

Has anyone ever said to you, "Why don't you think like I do?" This remark, instead of influencing you, may have annoyed you to the point of wanting to do something completely different.

If everyone acted and thought alike, there would be no incentive to grow and develop, create or carry on. Instead, there would be no progress and no fun in living; complete boredom. Man's link in the chain of divine activity and divine principle is the right to constructive self-expression. We are born free souls and must grow and live in ever increasing attunement and beauty from within. Only then can we be true to our divine privileges, and our fellow man.

The Heart's Desire is one of the most important numbers in Numerology. It is found from the letters a-e-i-o-u in the name at birth. The Heart's Desire number will help you discover what it is you desire to be, or do.

The urge of the Heart's Desire is so strong, that at times it overrules all other traits of character; even those of the Birth Force and Destiny. At other times it may lie dormant and be repressed by circumstances until suddenly awakened, it becomes active with a surprising force, changing all well-organized plans for work and success. This inner seed of self-expression is within every person. However, not all people hear or stop to listen to the call of the soul's command and fail to gain from its life-giving energies.

If you are thinking about joining another in a domestic relationship or business affair, it is wise to know the inner nature of your loved one or associate. Even though you may have a lot in common, there will probably come a time when the inner nature of the other person (or your own) comes to the surface. This may come as a surprise, if you are not prepared, and may cause problems. However, if you are prepared, it could bring a deeper understanding and greater happiness.

The nature of the Heart's Desire never changes. In the background, the urge of man's soul is quietly taking part in his desires, interests and affairs. To summarize, the Heart's Desire is: What the individual values most, personal likes and dislikes, methods and ways of looking at things, the way the true character will be expressed, the ambition and incentive, the soul's longing, the individuality and the inner urge.

Your Number 10 Hearts Desire

Barak, you are strongly individualized, independent, ambitious and capable of great accomplishments. You like to feel independent and do things in your own way and are not one to shirk responsibility. You probably have a lot of determination and inner strength. You want to get ahead in the world, but by your own intelligence and effort, and may not be truly happy in a subordinate position. If you find yourself in such a position for any length of time, it may mean you are not delving deep enough into your heart for the strength of character that is there. You have too much executive ability, determination, creative force and inner power to allow you to stay at the foot of the ladder of life.

You will make your way in the world with satisfaction and ease if you make use of your latent powers of original and interesting ideas and executive ability, and apply them in a constructive manner. Barak, you don't mind working alone; however, you want to handle only the main issues, leaving the details to others. You have a tendency to refer everything to yourself and want your home, children, spouse, etc. to be a credit to you. You seek out opportunities to display your usefulness and strength, and are proud of your abilities and want to be praised for them.

At times your determination and inner will can become too strong, and now and then you can be impulsive, stubborn, or headstrong. Barak, you do not like to be told what to do, or be under the control of those who are not in harmony with your methods or ideals. This might make you appear egotistical, bossy, dominating, or contrary, and could lead to misunderstandings or unhappiness at certain times in your life. All Ones need to cultivate friendliness and human interest.

Keep your self-confidence strong and stand up for your rights. Maintain pride in yourself and your accomplishments, but at the same time, always express your plans and ideas with sincerity, courtesy, and graciousness. This will build character and make you a fine leader, admired by others.

You also feel the need to be recognized and at the head of things in your home life and business. As long as your nature is generous and kind, you always will be. You are loyal in friendships, and fair in business. You want to succeed and are usually capable of doing great things in life.

Don't read it as "what you are", read it "what you must do".

Throughout your lifetime, the Destiny requirements remain the same. They can never be neglected. Many experiences brought about through your Destiny number will test your willingness to be true to the purpose of your birth.

The Meaning of the Personality

The personality will open many doors of opportunity when it's understood and made part of the character. It should be the channel through which the true character is expressed. An individual's personality does not represent the inner nature, nor is it the true self. Instead, it's the outer self; what you present when meeting others in business or social situations. There is a strong tendency to judge people by their personality. This can lead to many misunderstandings. A pleasing personality may cover up talent, weaknesses; even sincerity and honesty. On the other hand, a person with good abilities and character may be overlooked because of a dull or unattractive personality. The individual is quite often unaware of these mannerisms. As the person gets older, these traits become habits and may be very difficult to change. When attempting to get ahead in the world, it's important to combine the meaning of the personality number, to the talents of the birth force, and the more powerful urge of the heart's desire. This will allow for true character building. Since the personality is the way we express ourselves, it's important to be in harmony with this number when expressing ourselves. Your life was outlined the day you were born. If the Reality number is taken into consideration early in life, the latter days can be as successful, enjoyable, interesting and secure as any other time in life. This is one more thing to take into consideration to help guide you. It is found by adding your Destiny number to your Birth Force.

The Reality number's influence is very subtle. Many people are unaware of its persuasive presence. In young children, it is very noticeable in their personal interests and by the way they act. However, the demands of the Destiny number, personal ambitions and the need to earn a living take over and the Reality number is forced into the background. But it is always there and comes to the surface as the years pass by. The Reality number gives a new perspective to old age. It is no longer something to be feared.

Your Number 9 Reality

The realization of the "brotherhood of man," and service to mankind, are the rewards for the number nine reality in the latter days of life.

Part of the victory is to rise above the fears and jealousies of mankind.

The world of art, drama, beauty, and literature in all its forms, give financially and personal reward.

The 19/1 exhibits traits and energy of the negative 1, possibly being so concerned with his own needs that he totally overlooks the needs of others. He may be surprised by others negative reactions to him, not understanding why this is so. The person with the 19/1 may also find it difficult to stand on his own two feet and tends to blame others or the world in general.

The Meaning of the Pinnacle

The Pinnacles are well-defined paths which indicate the direction of experience during the individuals four periods of life. They are instructive and protective.

When the Pinnacles are realized and understood, they can be prepared for ahead of time, and the heights of attainment indicated by each Pinnacles number can be fully reached and utilized. It is sometimes hard to account for the sudden changes or unexpected conditions that take place in our lives. We may suddenly change our associations, line of work, or complete lifestyle. When we realize, however, that change means progress, we then have a chance to succeed. These changes are revealed to us by the Pinnacles and will operate regardless of any other numbers on our birth chart.

No one can escape the Pinnacles or the valuable experience gained by them. The signposts hold true for the aware, as well as the common individual. The aware, however, welcome these experiences and realize that through change there is growth, while the ordinary man calls them fate and may not see the true purpose behind the experiences.

The first Pinnacle is very personal and begins when we are born representing the spring of life.

The second Pinnacle moves quickly by, having a period of nine years. It represents the summer of life; a time for family and responsibility.

The third Pinnacle also covers a period of nine years, and represents the more mature states of mind. It is the middle age, and covers the autumn of human experience.

The fourth Pinnacle represents the winter of life, and will continue until the end of our earthly existence. It is during this time that we can cultivate the experiences of the past for opportunity and success and should work for the human and spiritual welfare of mankind.

Each characteristic of the Pinnacle should be utilized to its fullest and be recognized as a period of development, progress, and growth. The rule for figuring the Pinnacles is as follows:

First Pinnacle - The sum of the digits of the month and the digits of the day of birth.

Second Pinnacle - The sum of the digits of the day and the digits of the year of birth.

Third Pinnacle - The addition of these two numbers. (First and Second Pinnacles)

Fourth Pinnacle - The sum of the digits of the month and the digits of the year of birth.

The rule for timing the Pinnacles is as follows:

Start with the number 36. From the number 36, subtract the number of the Birth Force. This will give you the period of time the first Pinnacle is active, and tells at what age it's influence will end.

Next, add nine years to the age the first Pinnacle ended. This is the period of time the second Pinnacle is influential.

Add nine years again to the age the second Pinnacle ended. This will be the period of time the third Pinnacle is in effect.

The fourth Pinnacle will be in affect from the end of the third Pinnacle until death.

First Pinnacle 3 Birth to 25

Second Pinnacle 3 From 25 to 34

The number three as a first pinnacle shows an artistic opportunity present. However, quite often a younger person will show little regard for work and effort and seek rather to enjoy life, thus causing a wasted first pinnacle with the possibility of regret later on, if the talents at hand are not directed positively and constructively.

The number three on any pinnacle opens the door for more personal expression, and is the number for creative ability, inspiration, and artistic feeling. It is a wonderful pinnacle to be in, as the undertakings are not hard, but deal instead with feeling and imagination.

There is opportunity for ideas of a creative nature, as well as through writing, speaking, or acting. It is a time of enjoyment and the pleasures of living, as well as a natural attraction for money.

The number three as a second or third pinnacle can be a real blessing. It can give the individual more of a personal opportunity to develop the ideas and talents then at any other time during the life.

For the final pinnacle as well, artistic, imaginative, and creative expression can continue. However, it is important to guard against careless expression of the emotions and feelings, as many unhappy experiences could arise due to a loss of control over the emotions.

The number three on any pinnacle should be a pleasant and cheerful time, with a cultivation of the arts, and a development of the talents. There is opportunity for success, an expanded social life, and tremendous self-expression.

Third Pinnacle 6 From 34 to 43

Duty and responsibility are characteristic on any six Pinnacle. There is an opportunity to help and comfort those in need and do useful, humanitarian work for the young and old. It is not a time for personal satisfaction alone, but rather a time to do useful work for the good of humanity. The opportunity for financial success is also present.

The responsibilities of home, family, friends, and loved ones are strongly felt on any six Pinnacle.

The number six as a first Pinnacle may indicate an early marriage, or duty and responsibility at a young age. A secure and happy home life, along with financial success can be the rewards, if the duty and responsibility is accepted.

The opportunity for love and marriage is possible under the final six Pinnacle; it does not indicate useless or lonely latter days.

During any six Pinnacle, the problems of marriage, money, children, family, friends, and home life may present themselves, and should be handled with love and loyalty, in a humanitarian way.

Fourth Pinnacle 7 From 52 to Death

The number seven is a strongly individualized force, and is a period of soul searching and development on any pinnacle. It demands the best, and wants perfection, but is also somewhat of a loner.

The individual on any seven pinnacle will feel the desire to investigate and study things, and will want to look underneath the surface for the understanding and knowledge of the deeper forces of life. They will desire to be left alone and will lose interest in worldly activities. Scientific and educational endeavors can be cultivated at this time.

The number seven on any pinnacle is a time to look within, meditate, study, and work towards a deeper meaning and understanding of life.

Guard against withdrawing too deep within the self and moods of depression, as this will defeat the true purpose of the number seven pinnacle. Avoid sudden changes due to feelings of restlessness, as these changes can result in a lack of application and accomplishment.

A number seven first pinnacle often brings repression and restraint due to a limited income, poor education, strict parents, or ill health.

The number seven on any pinnacle must live according to what is right and true, and there can be no short-cuts or evasions while working through a seven experience.

The seven pinnacle may not be an easy marriage vibration, as the seven can be aloof, introverted, and at times can appear cold and separate, being more interested in the work and studies than in other everyday activities. However, when wisdom, knowledge, and understanding are attained, the individual under the seven pinnacle will have the power to attract all things.

The number seven on any pinnacle is a time for self-examination and inner poise.

The Meaning of the Challenge

The number appearing in the Challenge may also appear in other parts of your chart. If it does appear other places and again in the Challenge, there is more required of the individual, in the nature of the Challenge number. It is necessary to incorporate the nature of this number into your everyday affairs and use it to round out your character. This will greatly assist you in your quest for success and happiness.

If the number of the Challenge is not found in other areas of the chart, it is even more important that the characteristics of this number be made a constructive part of your character.

As you observe your Challenge, you will be surprised at how often it appears in your everyday affairs. Even friends, family and business associates, who surround you, will have in their nature your Challenge number.

The rule for figuring the Challenge is as follows:

The Cipher Challenge is a very common Challenge. It stands for nothing or all. The universe is symbolized by the circle. It contains all things, but can also be emptiness, depending on the mentality of the individual. Anyone having the Cipher Challenge has the right of choice; just to drift along in life; or too rise above the seeming problems to become truly great. Although big tests come, many wonderful and understanding people have the complete Cipher Challenge. The individual with the Cipher Challenge has the right to create his own world, and if he fills his world with love and compassion and true

helpfulness to mankind, his work and undertakings will succeed surprisingly well. When a period Cipher is present at any age or time in life, it should not be taken lightly, for during that time a selection must be made, which should be according to the Destiny and outstanding talents. A Cipher is similar to a number Nine. With a Cipher Challenge, cultivate a desire to make the world better.
